Amendment

Sir:

In response to the Official Action mailed July 1, 2005,
please amend the above-identified patent application as
follows:

In the Claims

8. (amended) A training device for soccer and a soccer goal post framework [as set forth in claim 5], said goal post framework having a first side leg extending upwardly, a second side leg extending upwardly spaced apart laterally from said first side leg, and an upper cross-bar extending laterally between said first and second side legs, an entrance opening between said first and second side legs of said goal post framework, said training device comprising a blocking member having a relatively large lower portion and a relatively smaller upper portion, said relatively large lower portion of said blocking member having an upwardly extending first side edge spaced apart inwardly from said first side leg of said goal post framework, an upwardly extending second side edge spaced apart in the direction toward said second side leg of said goal post framework, said second side edge being also spaced apart inwardly from said second side leg of said goal post framework, said blocking member having an upper
